

# TEDDY 5 L

## Description

1. With its size TEDDY™ is a mobile and flexible table model. Its equipment/extra equipment makes TEDDY capable of solving many different tasks of mixing, whipping, kneading, cutting and mincing. The multifunctional operation button is placed ergonomically correct on both sides of the mixer.
2. The operation of the mixer as well as mounting of tools and bowl is very simple. TEDDY is low-level noise running and has a very strong motor. The intelligent motor operation protects the mixer against overloading. TEDDY comes with attachment drive.
3. The mixer is equipped with an infinitely variable speed regulation from 1 - 5, which corresponds 70 - 400 RPM.

## 4. **Equipment**

With the machine the following equipment is supplied:

- 5 L bowl in stainless steel with white plastic lid
  - Spiral dough hook in stainless steel
  - Whip in stainless steel
  - Flat beater in stainless steel
5. Attachment drive placed in the front of the mixer, intended for the use of vegetable cutter and meat mincer.

6. The kneading capacity is:

| <b>Product</b>    | <b>Unit/ingredient</b> | <b>Approx. max. quantity</b> |
|-------------------|------------------------|------------------------------|
| Bread dough (50%) | kg/dough               | 2,5 kg                       |
| Flaky paste       | kg/paste               | 2,0 kg                       |
| Egg white         | pcs.                   | 16                           |
| Sponge cake       | kg/paste               | 3 kg                         |
| Minced meat       | kg                     | 4 kg                         |
